

# HPV Vaccination Brief, 2019

## Comprehensive Cancer Control Programs and Coalitions Training and Technical Assistance Needs

This brief provides an overview of Comprehensive Cancer Control (CCC) Program and Coalition activities to advance HPV vaccination across states, tribe/tribal organizations, territories, and U.S. Pacific Island Jurisdictions. It also highlights potential areas for training and technical assistance support.

### SUMMARY

#### Overview

The American Cancer Society (ACS), in collaboration with the Comprehensive Cancer Control National Partnership (CCCNP), conducted an online survey of comprehensive cancer control (CCC) programs and coalitions in April 2019. The 130 survey respondents represent CCC program directors and/or coordinators (48%), CCC coalition leadership and key stakeholders (19%), and ACS state and primary care managers (33%).

#### BY THE NUMBERS

**61 states, tribes/tribal organizations, and US territories/Pacific Island jurisdictions** participated (n=50, 6, and 5, respectively).

**59%** of CCC coalitions are staffed or “run out of” state health department CCC programs, **21%** are formal nonprofit organizations, and **10%** have an informal stand-alone entity.

**59%** prioritize HPV vaccination as a top 3 area in cancer plan implementation.

The **most common activity priorities** include: provider engagement and training (91%), working with health systems (77%), and parent education and media campaigns (74%).

#### Collaboration

The majority of respondents are addressing HPV vaccination through a task group (65.4%), dedicated project (11.8%), or an independent organization collaborating with the local cancer coalition (12.7%).

There was no significant variation in response by respondent or jurisdictional characteristics (organizational role, rurality, etc.).

**96% of respondents say their coalition is collaborating to address HPV vaccination.**

#### CCC PROGRAMS AND COALITIONS SNAPSHOT

61 of 65 CCC Programs and Coalitions responded to the survey.

**42**

selected HPV vaccination as a top 3 priority for cancer plan implementation.

**60**

are collaborating to address HPV vaccination.

.....

#### PRIORITY ACTIVITIES ACROSS STATES, TRIBES, AND TERRITORIES:

**55**

provider engagement/training

**51**

health systems work

**48**

Parent education/media campaigns

**47**

Understanding and using HPV vaccination data

# A Closer Look at Coalitions

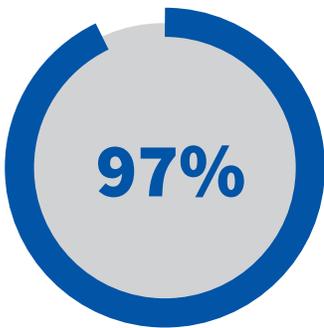

## COALITIONS COLLABORATING TO ADDRESS HPV VACCINATION ...

### Have the capacity to engage but need support for PSE Interventions(%)

**68%**  
with HPV Vaccination as a top 3 cancer plan priority **ARE USING POLICY, HEALTH SYSTEMS, OR ENVIRONMENTAL APPROACHES**

## COMMON EVIDENCE-BASED INTERVENTION CHALLENGES

Reporting at least 1 challenge to implementing evidence-based interventions (EBIs)

**71%**

Funding (implementation, materials adaptation, development/testing interventions)

**48%**

Designing or implementing robust evaluation

**34%**

Adapting EBI's for target populations

**33%**

Obtaining community buy-in

## ACS Comprehensive Cancer Control Initiatives

The ACS CCC Initiatives team offers training and technical assistance to all 65 state, tribe/tribal organization, territory, US Pacific Island jurisdiction programs and coalitions within the CDC's National Comprehensive Cancer Control Program. The ACS CCC Initiatives team seeks to build capacity of the CDC National Comprehensive Cancer Control Program grant recipients and their coalitions to implement

policy, systems, and environmental change approaches and evidence-based promising practices in cancer prevention, screening, diagnostic follow-up, and survivorship. Training and technical assistance activities include webinars, online resources and toolkits, live presentations, consultations, forums, workshops, and linkages with CCC colleagues nationwide.

## Comprehensive Cancer Control National Partnership (CCCNP)

Through coordination and collaboration, the CCCNP assists comprehensive cancer control (CCC) coalitions to develop and sustain implementation of comprehensive cancer control plans at the state, tribe/tribal organization, territory, US Pacific Island jurisdiction, and local levels.

The CCCNP was formed in 1998 as a collaborative group of diverse national organizations working together to build and strengthen CCC efforts across the nation. Today, the CCCNP is an influential group of 19 leading cancer organizations that utilize their combined strengths and resources to change the trajectory of the cancer burden in the US.
